

ATEC PRODUCTION ROLE-UAT SIGN-OFF CHECKLIST

Assistant • Inspector • Manager | Job Crew and Timesheet Workflow

Control field	Value
Document ID	ATEC-UAT-TIME-002
Version	0.1
UAT environment	https://www.atecinspections.co.za/
Public login/API health	Verified 10 August 2026
UAT date	_____
Test lead	_____
Process owner	_____
DATA CONTROL: Use approved synthetic customer, job and employee records. Do not alter a real employee timesheet or operational job for training. Record evidence without exposing passwords or unnecessary personal information.	

1. Entry criteria

- ☐ Process owner has approved the UAT scenario and synthetic Job 11927 or replacement number.
- ☐ Authorised Assistant, Inspector and Manager training accounts are available.
- ☐ Test customer/site/job can be created without affecting operational records.
- ☐ Desktop browser and one approved mobile device are available.
- ☐ The tester has the v0.4 guide and Tutorials 9–12.

2. Public availability

Test	Expected result	Pass	Evidence / issue
Open production URL	ATEC Inspection Platform displays ATEC Login, Username or Email, Password and Login.	☐	
Open /api/	Response states ATEC backend is running.	☐	
Refresh login page	Login page reloads without routing or certificate error.	☐	

3. Assistant role walkthrough

Step	Expected result	Pass	Evidence / issue
Log in as Assistant	Displayed identity and role belong to the authorised	☐	

	Assistant test account.		
Inspect Jobs & Time	My Day / Timesheet is available; Technician Job Cards and Timesheet Approvals are not available.	☐	
Open My Day	Selected date, status, time rows, totals, exception control, submit control and history are visible.	☐	
Add manual WORK exception	Numeric test Accelo Job Number, actual start/end and details save successfully.	☐	
Attempt nonnumeric job number	System rejects the job-related entry with a clear validation message.	☐	
Edit unlocked entry	Corrected start/end saves only after an audit reason of at least five characters.	☐	
Submit day	Status becomes Employee Submitted and employee controls become read-only.	☐	

4. Inspector role walkthrough

Step	Expected result	Pass	Evidence / issue
Log in as Inspector	Displayed identity and INSPECTOR role are correct.	☐	
Inspect Jobs & Time	Technician Job Cards and My Day are available; Timesheet Approvals is not available.	☐	
Open assigned synthetic job	Inspector can open only an assigned or created job.	☐	
Add Assistant under Job Crew	Correct synthetic Assistant appears once with ASSISTANT role and included time.	☐	
Save/reopen job	Crew selection persists.	☐	
Complete timeline	Departed, Arrived, Work Started, Work Completed and Travel Completed retain factual sequence.	☐	
Submit job	Valid timeline segments are copied to the included lead and Assistant.	☐	

5. Assistant copied-time confirmation

Step	Expected result	Pass	Evidence / issue
Assistant reopens My Day	TRAVEL/STANDBY/WORK segments match the submitted job timeline.	☐	
Correct a personal difference	Assistant can correct an unlocked copied line with a reason.	☐	
Check duplicate protection	No duplicate job-card segment is created during the controlled scenario.	☐	
Submit	Assistant confirms and submits their own sheet.	☐	

6. Manager review boundary

Step	Expected result	Pass	Evidence / issue
Log in as Manager	Timesheet Approvals is available.	☐	
Open Assistant sheet	Employee/date/job/totals and audit history are visible.	☐	
Return with reason	Assistant sees Returned status and reviewer reason, then can correct.	☐	
Approve corrected sheet	Sheet moves to Manager Approved.	☐	
Verify Inspector boundary	Inspector cannot approve the Assistant timesheet.	☐	

7. Mobile/device verification

Device / browser	Screen	Expected result	Pass	Evidence / issue
_____	Login	No horizontal clipping; fields and Login button usable.	☐	
_____	Assistant My Day	Date, rows, exception controls and submit button usable.	☐	
_____	Inspector Job Crew	Crew selection and timeline fields usable.	☐	

8. Exit and evidence controls

- ☐ Delete or archive the synthetic job according to the approved cleanup plan.
- ☐ Remove temporary UAT accounts if they were created solely for the test.

- ☐ Confirm no real timesheet, payroll export or Accelo package was created.
- ☐ Store approved screenshots in the controlled training evidence location.
- ☐ Record all defects in the improvement list with severity, owner and due date.

9. Final decision

Decision	Select one
Accepted for controlled training release	☐
Accepted with minor actions listed below	☐
Rejected — repeat UAT after correction	☐
